

Avesta OriginalFinish™ – Fingerprint Remover

Fingerprints are an ongoing challenge on bright, polished stainless steel, and Avesta's OriginalFinish™ Fingerprint Remover eliminates them with ease, returning your stainless steel to its original lustrous look, feel and finish. While OriginalFinish™ Fingerprint Remover works quickly and easily on everyday fingerprints, a pre-cleaning with OriginalFinish™ Grease Remover may be required for stainless steel surfaces with heavy grease or if oil-based cleaners need to be removed.

OriginalFinish™ Fingerprint Remover is suitable for a variety of applications, including cladding, kitchens and clean rooms. With no oil or wax additives to attract dirt and bacteria, OriginalFinish™ Fingerprint Remover leaves no streaks or stains.

Regular cleaning with OriginalFinish™ Fingerprint Remover promotes rapid regeneration of the chromium oxide layer that protects the surface. Plus, with a pH of 12, this alkaline formulation is able to assist in the removal of bacteria and germs.

OriginalFinish™ is the only stainless steel cleaner on the market that is made by a stainless steel manufacturer. It was developed at the request of our customers, because they could not find a

cleaning product that could maintain the original luster of their original stainless steel products. Our name says it all: OriginalFinish™ helps you to preserve the original look, the original feel and the original finish of your stainless steel.

Use Avesta OriginalFinish™ Fingerprint Remover to clean:

- Fingerprints on bright surfaces
- Sensitive bright surfaces
- Bacteria and germ build up
- Light oil and grease residue
- Dirt and dust

For surface rust removal, use Avesta OriginalFinish™ Rust Remover

For greasy surfaces, use Avesta OriginalFinish™ Grease Remover

NSF Reg. No. 136045
Category Code A7
